

## Topaz Financials Achieves HMRC VAT E-Filing Accreditation Boost

Topaz has received an accreditation boost for its financial software after achieving HMRC accreditation for VAT E-filing for VAT 100 and 101.

HMRC has officially confirmed that Topaz has successfully tested its Internet Filing Enable Software package for Topaz Financials to the Vendor Single Integrated Proving Service (VSIPS) test service for all the VAT100 and VAT101 forms available.

Topaz will now proudly become the inaugural enterprise software developer and provider to be included on the HMRC recognition web pages, which lists the VAT Online enabled software products that have passed through the process.

“Whilst other financial and accountancy software providers have yet to meet this government standard we are very proud to be the first enterprise developer to have achieved the e-filing HMRC accreditation for VAT100 and VAT101,” says Geoff Griffiths, Topaz Managing Director.

“We always aim to go the ‘extra mile’ and set the highest standards for our software products and services and this is further proof of our commitment to the current and future customers of Topaz Financials. It is a real feather in our cap.”

Topaz will be promoting the VAT 100 and 101 accreditation and the latest enhancements and partnership announcements for Topaz Financials at Softworld on Stand AF312 during the October 17 and 18 event hosted at the NEC Birmingham.

“The software, in conjunction with our advanced integrated or standalone Topaz Credit Control module, has been proved to pay for itself within two years and is now in demand, particularly from companies within the recruitment sector,” says Eddie Stanley, Topaz Sales Director.

“Following the introduction of new user-friendly functionality and glowing endorsements from companies that have praised Topaz Financials for creating greater efficiency and a host of features that have dramatically reduced reporting times we will be promoting the HMRC accreditation at Softworld and looking to gain further sales leads.”

## Notes to Editors:

### About Topaz

Topaz was founded by a group of like-minded business professionals and began life creating bespoke software solutions and supporting third party applications. At the core of Topaz business solutions are software applications that have been developed by its highly experienced team of software engineers. From inception to delivery, Topaz solutions are produced with the highest level of professionalism.

The company's many years of experience in software development to formal specifications produce both highly flexible packaged solutions and bespoke applications. Topaz's strict quality procedures ensure software is produced to high, exacting standards to a common template that has evolved over many years.

Topaz EMS is an integrated Payroll and HR solution with an optional Time and Attendance module, its inherent flexibility and ease of use. Lends itself to many different sectors of the market providing numerous time and cost saving benefits. Whilst being competitively priced the solution is regarded as one of the most comprehensive systems on the market today. The consultancy services Topaz provide ranges from complex business process re-engineering to production of Gap analysis reports and ultimately technical specifications.

Topaz Financials covers all aspects of a financial accounting solution including sales, purchase and nominal ledgers, cashbook and fixed assets and specialise in key areas like credit control, commitment and project accounting. Their growing user base acknowledge the quality of software developed by Topaz but also the essential services and on-going support. Users come from a range of business sectors and include: Education, Recruitment, Manufacturing, Professional Services and Distribution.
