

Topaz Delivers Expansion to Partner Program

To add to their recent new business success Topaz has seen many new recruits to their partner program over the last 6 months. These include EMC and National Data Services Limited (NDS). EMC specialise in the installation and support of computer system solutions for UK businesses and organisations of all sizes.

EMC Managing Director, Steve Abbey commented, "Our partnership with Topaz has enabled us to offer our existing and new clients functionally rich, Windows based software applications that provide flexibility and a scalable solution for which we have a long pedigree of supplying. Our hard earned reputation for quality and professionalism will be fully supported by Topaz."

An excellent example is Old Twenty Parts, a specialist distributor of parts for the commercial sector. They have enjoyed a long and trusting relationship with EMC and the partnership with Topaz has enabled EMC to offer an excellent software solution which will provide immediate business benefits in an extremely competitive market.

Topaz already have experience within the education and training sector and are now working closely with NDS to integrate Topaz Financial and Topaz EMS with NDS data management and information services to provide a complete solution. NDS specialise in providing a range of high quality, reliable and precise data management and information services all focused exclusively on the education and training sector. Despite the fledging relationship Topaz and NDS are already working on many mutually beneficial projects.

Notes to editors:

About Topaz

Topaz was founded in 1989 by a group of like-minded business professionals and began life creating bespoke software solutions and supporting third party applications. At the core of Topaz business solutions are software applications that have been developed by its highly experienced team of software engineers. From inception to delivery, Topaz solutions are produced with the highest level of professionalism.

The company's many years of experience in software development to formal specifications produce both highly flexible packaged solutions and bespoke applications. Topaz's strict quality procedures ensure software is produced to high, exacting standards to a common template that has evolved over many years.

Topaz EMS is an integrated Payroll and HR solution with an optional Time and Attendance module, its inherent flexibility and ease of use, lends itself to many different sectors of the market providing numerous time and cost saving benefits. Whilst being competitively priced the solution is regarded as one of the most comprehensive systems on the market today. The consultancy services Topaz provide ranges from complex business process re-engineering to production of GAP analysis reports and ultimately technical specifications.

Topaz Financials covers all aspects of a financial accounting solution including sales, purchase and nominal ledgers, cashbook and fixed assets and specialise in key areas like credit control, commitment and project accounting. Their growing user base acknowledge the quality of software developed by Topaz but also the essential services and on-going support. Users come from a range of business sectors and include Education, Recruitment, Manufacturing, Professional Services and Distribution.
